The ICPD conference is a traditional scientific conference dedicated to current topics of farm animal diseases that are related to the respective food production systems. The conference has the overall goal to contribute to improve sustainability in animal food production. Species will include ruminants, swine, and poultry.

Presentations from expert scientists from all over the world will cover fields of animal husbandry, physiology, genetics, nutrition, reproduction, welfare, and herd health management, as well the interaction between these disciplines.

Chair of organizing committee:

Prof. Rupert Bruckmaier
Veterinary Physiology,
Vetsuisse Faculty,
University of Bern
